## **New Corporate Headquarters with Immersive HD Training Facilities Announced by Symmetry Solutions**

*SolidWorks Reseller Expands High-Tech Software Training Center –  
Hosts Brooklyn Park Open House*

Minneapolis, MN – April 29, 2010 -- Symmetry Solutions Inc., an award-winning provider of engineering and product development solutions, today announced its open house celebration on May 13 for its brand new customer facility in Brooklyn Park.

Now, engineering staffs across the upper Midwest region will experience their training sessions in a high-tech, cinematic audio-visual environment at the reseller's new state-of-the-art instruction center. Each instructional room is equipped with the top-of-the-line 16:9 HD projection systems, lighting, and computer systems which enable users to fully experience their 3D product design training course. Even the lunchroom is high-tech. The customer cafeteria – a 20-seat break area for students taking a full day of training – offers a Z Corporation 3D printer demonstration area and a large flat panel HD TV showcasing the latest feats in engineering, design, and manufacturing.

"It's an impressive facility, no doubt about it," says DS SolidWorks CEO Jeff Ray. "This new center shows Symmetry Solutions investment into the future. As requirements expand in the world of product development, Symmetry Solutions has put themselves in a great position to address those needs and beyond."

The complex also boasts a 22 x 24 foot conference room with a 130" x 72" high definition 1080p projection system as well as numerous offices and conference rooms for its employees. Overall, this new facility represents a 68 percent expansion in size from its former location. Everyone is invited to the center's official unveiling, 4:30 - 7 pm on Thursday, May 13th.

The open house will be a networking opportunity for the product design community across the Twin Cities and surrounding areas, and will include hors d'oeuvres, refreshments, demonstrations, contests, and drawings. Please RSVP at [www.symsolutions.com](http://www.symsolutions.com) or call 763-560-8600.

"It's no secret that the Symmetry Solutions team is extremely proud of our investment and can't wait to have our customers join us in the facility," say Scott Siewert, president of Symmetry Solutions. "We're looking forward to officially opening our new doors to the product design community and having a little fun."

Symmetry Solutions' new address is 8755 Brooklyn Blvd. Brooklyn Park, MN 55445.

### **About Symmetry Solutions Inc.**

Symmetry Solutions is a leading provider of software, hardware, and services to manufacturing and design industries in the upper Midwest. DS SolidWorks Corporation and Z Corporation are strategic Symmetry Solutions partners. Founded in 1998, Symmetry Solutions has served hundreds of companies, large and small, throughout the region, providing expert insight and solutions solving a wide range of key business objectives. Symmetry Solutions is based in Brooklyn Park, MN. For more information, please visit the company's web site (<http://www.symsolutions.com>) or call 1-800-975-0740.
